

Fully Closed Bike Kubby

Partially Open Bike Kubby

Fully Open Bike Kubby

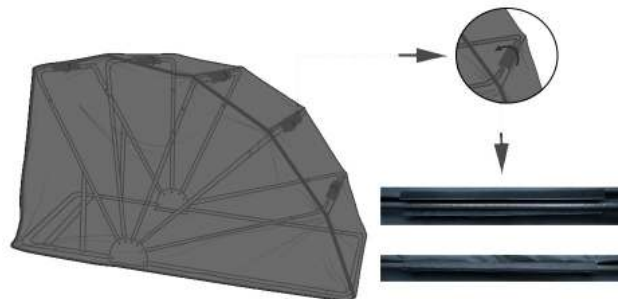

Where did the Kubby come from?

The Bike Kubby came naturally as an extension of our experience in Motorsports internationally. Severe weather and continued exposure are not the friends of performance vehicles. We found a premium manufacturer with over 20 years of experience in design, development and creation of extreme weather camping tents, and designed an awesome shelter for our two wheeled fun. Our joint experience in protecting lives and performance machines in severe outdoor conditions means we can offer a solution for protection of motorcycles in the harsh Australian environment.

The need for an affordable storage solution that offered full protection from sun, hail, dust, and rain - beyond a basic throw-over cover was the reason we dedicated the time to develop the best full protection Motorcycle cover possible.

It was our interest in Bikes, manufacturing experience, and awareness of a definite need that inspired us to design, develop and distribute our retractable, waterproof, full protection - **Bike Kubby!**

BIKE KUBBY – Retractable Motorcycle Covers

Top 10 Features and Benefits

- 1**
Fits all standard, sport and touring motorcycles as well as scooters, many ATVs, and bicycles
- 2**
Waterproof material with fully taped seams for complete weatherproof operation
- 3**
Provides full coverage from sun, rain, hail, snow, dust and debris
- 4**
Fast assembly—less than 30 minutes, with an included transport case for portability
- 5**
Locking hardware allows the Bike Kubby to be secured in the lowered position
- 6**
Side vents prevent build-up of condensation
- 7**
Safe place for bike-specific gear to be hung in the Kubby for easy access
- 8**
Allows bike to be parked and covered even when the pipes are still hot
- 9**
Accommodates a solar powered LED Lamp for parking or general night access (extra)
- 10**
Accommodates tough impact resistant flooring for additional protection and a complete shelter appearance (extra)

What's a Kubby?

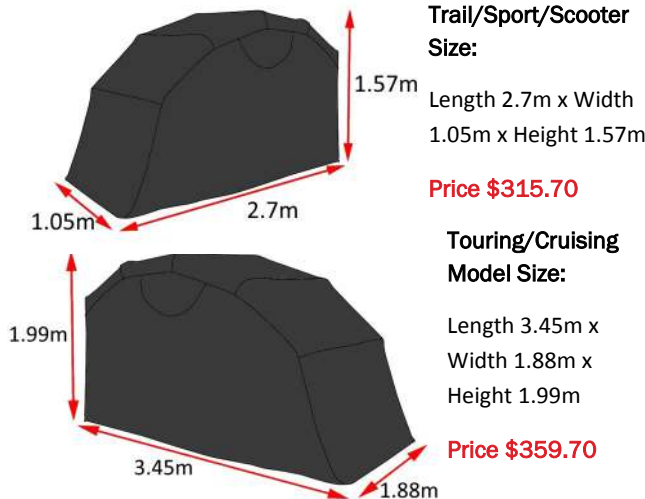

The Bike Kubby is an affordable, private miniature garage with a retractable “roll top” feature that allows fast and safe access and storage of your Bike!

Simply park your Bike straight into your Bike Kubby, lower the retractable cover over your Bike and you're done! You can rest assured that your Bike is fully protected and there's no need to wait for the pipes to cool!

The Bike Kubby is simply a pleasure to use. Once installed, it takes moments to open it, roll your Bike out, and close it again. It doesn't get much easier than that.

How big is a Bike Kubby?

Two Sizes

Looking for something larger? Please visit our website for more sizes for all your other vehicles, or call us to discuss your requirements.
